

Facebook Video Chat Instructions

Computer:

1. Log in to your Facebook account.
2. Ensure you are friends with each person in your group.
3. On the right side of the top blue bar, click the Messages bubble, then click "New Group."
4. Search for each person in your Small Group and add them to the group by clicking on the bubble to the right of their name.
 - a. Their names will populate on the right side of this box as you add them.
5. Once everyone is added, click "Create" in the bottom right corner of this box.
6. Open the group (you can find this at any time in the Messages section) and click the video camera icon in the upper bar of the conversation box. This will video call each person in your group.

Smart Phone:

1. Open up Facebook Messenger App. Ensure that you are logged on and are friends with each person in your Small Group.
2. In the upper right, click the New Message button (it looks like a pen writing on paper).
3. Search for each person in your group and add them by clicking the bubble to the right of their name.
 - a. Their names will populate at the top of this box as you add them.
4. Once each person is added, click "Done" in the upper right corner.
5. Open the group and click the video camera icon in the upper right corner. This will video call each person in your group.

Your group members will have to have Facebook open on their computer if this is how they are participating; They will receive a notification like a phone call if they are using the Facebook Messenger App. Only you need to make a group and initiate the call.

Only a small number of faces will fit on the screen at a time; it will rotate through as people talk. If someone talks whose video is not currently showing, it will pop up on the screen.
